A PROFESSIONAL-GRADE EDUCATION

The Academy for Salon Professionals is the first Redken-affiliated School in California. Its programs, state-of-the-art facility, and faculty are leaving other beauty schools, and the very definition of “beauty school”, far behind.

Designed by New York City’s Peter Millard (the Redken Gallerie store on Fifth Avenue, Ralph Lauren, Giorgio Armani, and Yves St. Laurent), the Academy is a professional-grade facility that boasts of elegance, glamour, and achievement.

The Academy for Salon Professionals mission is to “Empower, Educate and Inspire” future graduates for the cosmetology and esthetic industries. We are constantly updating our education programs to keep our education at a high quality.

WHAT REDKEN ARTISTS ARE SAYING

“In the past, our industry changed by the decade or by the year. Today, in our information craving society, it evolves daily. Consequently, understanding today’s skills in technical and business is crucial. That’s why the choice of the school is paramount. The difference is in the training. They will learn the what, why, and how behind all their skill sets. I am excited for the students attending the Academy. Why? Because the quality of, both fundamental and advanced, training that they will receive is the best.”

Chris Baran
Artistic Director, Redken 5th Avenue NYC

“Being a part of Redken has definitely changed my life. I got into the business with the thought of being involved in fashion, beautiful women, and less school. Well I am pleased to share that I got very involved in education and am proud to be part of a company that cares about its clients. For anybody new to hairdressing, I offer you this piece of wisdom: You only have one shot at life so make sure you develop a passionate love affair with hairdressing so that passion is easily read by anyone that may cross paths with you in your journey.”

JOB DEMAND SURVEY 2007 – RESULTS FOR CALIFORNIA

Since 1990, NACCAS has commissioned several Job Demand Surveys, to provide quantitative data on cosmetology careers, earnings potential, and job openings. The most recent survey, completed in May 2007, compiles data from 6,203 salons responding to a national survey.

The 2007 Job Demand Survey results indicate that salons in California plan to hire 45,967 new employees in the next twelve months. The average annual salary for a salon professional in California is \$44,134. This amount does not include tips and gratuities. Nationally, the average salon professional's salary is \$35,973.

Most importantly, 69 percent of California salon owners who attempted to hire new employees in 2006 said they were unable to find properly-trained applicants. This means that jobs would be immediately available for salon professionals.

As of January 2007, there were 325,021 professionals employed at California's 48,131 salons. 40 percent of salons in the state are employer-owned, and 29 percent are booth-rental salons. The other 31 percent are a combination of the two.

49 percent of California salons are classified by their owners as full-service salons; 20 percent are listed as haircutting salons. Barbershops make up 13 percent of the total. Nationally, 58 percent of salons are listed as full-service, meaning that California has a higher percentage of specialized establishments.

CAREER OPPORTUNITIES

There are many opportunities open to licensed cosmetologists and estheticians. Academy for Salon Professionals prepares all graduates for the licensing exam and entry-level positions in hair salons, spa/salons and destination spas. Additional industry experience could lead to employment as a manufacturer/sales education person, a distributor sales consultant, and in teaching, admissions, and financial aid in cosmetology schools.

CAREER PLANNING SESSIONS

The Academy for Salon Professionals maintains contacts in the cosmetology profession to assist students in job placement. Employers are encouraged to interview students, and every effort is made to secure a job opportunity for each graduate. There will be regular career events where prospective employers will be invited to the Academy to meet and speak with students. Students are prepared in the latter part of training to seek positions. Job opportunities are announced and posted on the student board, located within the facility. The Academy website has a link for industry professionals looking to hire graduates. The Academy for Salon Professionals cannot guarantee every student will be placed. However, we do follow-up on graduates to help us prepare new students for future job placement.

GRADING METHOD

The grading system practiced is one applicable beginning the first day of class for all students. Theory assignments are scheduled for each unit of study as defined by the licensing agency. Theory and practical applications are sequentially introduced as a means of integrating them throughout the course of study. The sequences follow an ascending order to acquaint the student with subject material applicable to their level of study and to correspond accordingly with the number of cumulative hours the student has attended classes. Students receive grades for all required units of study during the course of study specific to the enrollment agreement.

GRADING

The Academy for Salon Professionals uses a 100-point grading scale: 80-100% is passing, 0-79% is not passing. Grades are given for classroom work, projects, and styling area performance. Work habits, appearance, conduct, initiative, cooperation, and attendance are also considered.

INCOMPLETES

Incompletes may be given by the educators when the student is making every attempt to learn a skill or subject but requires additional time to complete the work successfully. Educators determine the time to complete the work. The student will be given a deadline and description of work that must be completed.

INADEQUATE GRADES

When a student is weak in one or more areas of study or skill, the educators will determine a deadline for the student to complete the work satisfactorily. Inadequate grades may indicate lack of motivation as well as inability. The student will be informed immediately after a grading period how a deficiency can be corrected. The student will be advised during the grading period if grades are below standard.

TEACHING METHOD:

1). Students must attend classroom instructions in the arts and science of cosmetology. Such technical instruction shall be accomplished by demonstration, lecture, classroom participation, and examination. This includes introduction, demonstration, and application of material implements and equipments which are application to the trade. Emphasis is given to the accepted basic procedures

and their execution, as well as opportunities for exposure to current and stylized trends, fashions, techniques, and deviations from and/or variations of procedure.

2). Training and opportunity for the practice of all manipulative skills required in Cosmetology and Esthetics. For this purpose, practical operations are hands-on training by the student of a complete service on another person or on a mannequin. Correlation between theory and practical work will hasten the learning process and serve to mitigate the difficulties in mastering of Cosmetology and Esthetic skills. Sequential evaluation will determine progress and reveal deficiencies where additional help is needed.

3). A blending of interest, motivation, training, and knowledge in the scientific study and practice of cosmetology arts and sciences will help qualify students in their pursuit of a Cosmetology and Esthetic licenses. A total of 1,600 hours are required by the California for a cosmetology license and 600 are required for an Esthetics license.

4). Implementing a course of study, accomplishing all of the foregoing objectives in the required allotted time, to prepare students to the best of their ability for positions in the field of Cosmetology arts and sciences

ATTENDANCE AND TARDINESS

The Cosmetology program is given 75 hours of absences within the given time frame of graduation contract. If you go over your 75 hours you will have to pay an hourly fee to make up for the absences. Only 15.0 hours of those 75 hours may be Saturdays; however, Saturdays they must be booked out in the computer one week in advance to ensure clients are not being booked with you.

Estheticians program is given 37.5 hours of absences within the given time frame of the graduation contract. If you go over your 37.5 hours you will have to pay an hourly fee to make up for the absences. Out of the 37.5 hours, 7.5 of those may be a Saturday; however, this must be booked one week in advance to ensure clients are not being booked with you.

TARDINESS

A student will be suspended for one school day after the student has been tardy more than two times in one month. Clocking in after 9am is a tardy; therefore if you clock in after 9am three times within the month of the tardy you will be suspended. For example: Joe clocks in Tuesday the 12th of March at 9:03am this is his first tardy. This starts his month of tardy. On the 14th of March Joe clocked in at 9:05am this would be his second tardy for the month. Joe again is late and clocks in on April 3rd at 9:03am he is now suspended for the day for his clocking in after 9am. If a student is tardy after the suspension, the student will be advised that further tardiness may result in being dropped from the program. Being tardy on a regular basis reflects a lack of commitment to the program.

ABSENTEEISM

An attendance rate of 80% must be maintained at all times by every student. Should a life circumstance cause you to be absent, it is mandatory that you contact Administration. If a student does not maintain 80% attendance, corrective action will be taken. Correction will be expected immediately and must be maintained.

* The Academy has no excused or unexcused absences.

MAKE-UP WORK POLICY

Students may make-up any work missed during their absence at the discretion of the instructor.

This school uses software published by Smart software and Envision to track student participation and attendance. Specifically, the system will allow your instructor to record the hours you spend taking the course by tracking both your hours at the school, and your time performing various duties, your lab time, practice time, and will also track your specific skills development.

SUSPENSION

Students may be suspended for absence, tardiness, or inappropriate behavior. If a student is suspended, the student will be advised of the problem and what the student must do to correct the problem. It is the intent of the school to prepare professional people for a career. If a student is not so inclined and has limited likelihood of success in this career, it is the responsibility of Academy to inform the student and to tell the student how deficiencies can be corrected.

TUTORING SERVICE

Arrangements may be made for tutoring if a student requires or desires such assistance. The fee would be negotiated between the student and the tutor. The school limits its responsibilities in this regard to providing assistance in finding a tutor.

GRADUATION REQUIREMENTS

A grade average of 80% is required for graduation from any program at the Academy for Salon Professionals. Both theory and practical work are considered important. Students are evaluated on a level system that prepares them for salon performance levels. All work must be completed to graduate.

The following are required for graduation from all programs:

1. Completion of state required number of hours
2. Completion of all assignments and tests
3. Completion of weekly project sheets and weekly grade sheets
4. 80% attendance and an 80% grade average
5. Payment of all tuition, fees, and over-contract charges or make satisfactory arrangements with the school.

STATE BOARD LICENSING

RECIPROCITY

Licensed cosmetologist, estheticians, and nail techs from California may apply for licenses in their field of expertise in other states and must comply with each state's laws and rules to become licensed there.

LICENSING REQUIREMENTS

To become licensed in cosmetology in California, students must complete 1600 hours of approved training, graduate from an approved school, and pass the state board exams.

To become licensed in esthetics in California, students must complete 600 hours of approved training, graduate from an approved school, and pass the state board exams.

PHYSICAL DEMANDS

Prospective students that might be adversely affected by long periods of standing or sitting, or by being exposed to chemicals used in the Beauty Industry, should obtain a doctor's release before entering the Academy or continuing school. Examples of such health conditions might include Asthma, Pregnancy, or Allergic Reactions to odors from certain chemicals used in the profession. Persons at risk with health, nervous or emotional conditions should consult a physician before considering enrolling.

SAFETY REQUIREMENTS

Basic safety requirements for each course are introduced on the first day of classes, during Orientation. Safety instructions include but are not limited to information on how to safely store and use chemicals and equipment associated with the specific course of study. Safety instructions are an ongoing procedure throughout the entire course of study. When applying chemicals protective gloves are to be worn. If electrical equipment is used in the preparation of nails eye protection should be worn. Hair may not be left on the floor following a hair-cut.
